Main Chemical Composition: Eugenol, eugenyl acetate, β -caryophyllene

Clove | *Eugenia caryophyllata* 15 mL

Primary Benefits

- + Preclinical research suggests that Clove may be soothing to the skin when used topically

Description

Traditionally used in dental preparations for its mouth-cleansing properties, clove offers many benefits. When diluted with Fractionated Coconut Oil, Clove essential oil can be used for skincare. Intensely aromatic, Clove is warm, woody, spicy and sweet, especially when blended with Cinnamon Bark and used for perfuming.

Uses

- + Add to toothpaste to clean the teeth and freshen the breath.
- + Blend with a carrier oil for skincare.

Directions

Topical use: Dilute 1 drop essential oil with 10 drops carrier oil.

See additional precautions below.

Cautions

Possible skin sensitivity. Keep out of reach of children. If you are pregnant, nursing, or under a doctor's care, consult your physician. Avoid contact with eyes, inner ears, face, and sensitive areas.
