

Maximize a Weekend

A fast-track weekend allows you to maximize time, energy, and travel costs when required. Conducting multiple classes in a short period of time accelerates your training and sets you up for a more prepared future.

Below is a sample weekend schedule. Use it for ideas and then plug in your own schedule on the Daily Planner. You may be hosting your own classes, working with a host in their home, or launching a downline builder. Depending on the circumstances, consider how you can amplify moments such as making the most of in-between times to train, connect with new builder prospects, or have a special shared meal.

DAY 3: Saturday

9:30 am	Set Up + greet
10:00 am	Intro to Oils class
1:00 pm	Lunch + planning session

Whether working with your upline or a downline host/ builder, plan key follow-up actions together.

Power Tip:

By setting aside concentrated time for multiple classes, you make the most of your preparations by only needing to set up chairs, product display, and so on one time as well as making arrangements for family meal prep, childcare, and house cleaning. This is a great way to accelerate your launch or that of a downline builder.

Traveling not feasible? Use these ideas to create a week or weekend's worth of online events.
