PURSUE WHAT'S PURE

AUSTRALIA & NEW ZEALAND

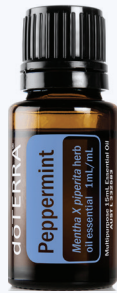

dōTERRA's Promise of Purity!

The purity of an essential oil is its most important characteristic. When an essential oil is adulterated or contaminated, it becomes less effective and can even be unsafe, depending on the type of adulteration or contamination. Purity is dōTERRA's priority when producing essential oils.

What are Essential Oils?

- Pure extracts from plants (50-70 times more powerful than herbs).
- Nature's defence mechanism for plants and cells.
- Used anciently and throughout history for health benefits.
- Highly concentrated – 1 drop of Peppermint essential oil = 28 cups of peppermint tea.

Why dōTERRA Essential Oils are the purest, most effective oils you can find in the world?

CERTIFIED PURE TESTED GRADE

- Quality! dōTERRA has established a standard of purity – Certified Pure Tested Grade
- Plants are grown and oils harvested in their natural habitat.
- Each batch undergoes multiple third-party tests for purity.
- Care and consideration taken in each step of the process, to nurture the plants and the local communities.
- Essential oils help you take control of your wellness, naturally.

Source the Best, Help the Most

Explore how dōTERRA sources only the most pure, potent, and effective oils on the Earth. dōTERRA is committed to providing only the highest quality essential oils to every household throughout the world. This commitment to not only source the highest quality essential oils but to also improve the lives of the communities' results in a great deal of trust.

Essential Oil Purity: CPTG Quality Testing

3 Ways to Use dōTERRA Essential Oils

AROMATICALLY Diffuse or inhale to:

- Create a specific environment
- Freshen the air
- Impact and influence your mood
- Support clear and easy breathing

INTERNALLY Enjoy a few drops:

- Add to your favourite drink
- Under your tongue for internal support
- Enhance the flavours of your cooking
