**Q. How often can I expect to receive rewards as a member of the Loyalty Rewards Program?**

A. You can receive rewards every month based on your order volume and membership tier. The more you order and the longer you stay loyal, the more rewards you can enjoy.

**Q. Do I have to commit to a certain number of months or orders when I join the Loyalty Rewards Program?**

A. There are no commitments or obligations when you join the Loyalty Rewards Program. You have the flexibility to customise your orders and participate as much or as little as you'd like.

**Q. What sets the Loyalty Rewards Program apart from other loyalty programs in the market?**

A. Our Loyalty Rewards Program stands out because it's tailored to support your wellness journey. With exclusive benefits, discounts, and rewards, it's our way of saying thank you for choosing us and prioritising your health and wellbeing.

**Q. What distinguishes product points from PV (Personal Volume)?**

A. PV and product points serve distinct purposes. PV represents the volume associated with each product, utilised monthly for commission qualification, rank advancement, and promotions. Product Points, on the other hand, constitute a percentage of the PV that members earn back when they place their Loyalty Rewards orders. These product points accumulate and can be redeemed on the products of your choice.

**Q. When can I expect my points to be credited to my account?**

A. Percentages and product points are typically credited between the 15th and 20th of the month, following the placement of LRP orders.

**Q. Do my product points have an expiration date?**

A. Yes, product points expire after 12 months. However, orders maintaining a minimum of 1 PV\* ensure the retention of both your Loyalty Rewards membership tier level and corresponding percentage earnings and also ensure you maintain any previously accumulated product points.

**Q. Will product points be available immediately upon order processing?**

A. Product points are credited to your account post-commission processing. Therefore, you can anticipate the accumulation of product points after the 15th of the month and before month-end.

## **Q. Can I utilise product points to purchase any product, and how many points are required?**

A. While most products carry a point value, certain exceptions apply. Limited Time Offers (LTOs) or BOGOs, for instance, cannot be procured using product points. Moreover, new products typically become eligible for point redemption approximately one year after release. Each product is assigned a specific point value, discernible on the Point Redemption Form available on our website. It's essential to note that a product's point value differs from its personal volume (PV); for instance, Ylang Ylang is 39.50 PV and can be redeemed using 52 product points.
