WINTERGREEN

GAULTHERIA FRAGRANTISSIMA 15 ML

SKU: 31620004

Certified Pure Tested Grade[®]

PRIMARY BENEFITS

- GREAT FOR A WARMING, SOOTHING MASSAGE AFTER EXERCISE.
- HAS A REFRESHING AROMA THAT UPLIFTS TO ENLIVEN THE SENSES.

PRODUCT DESCRIPTION

Wintergreen essential oil is derived from the leaves of a creeping shrub found in coniferous areas. The main chemical component in Wintergreen, methyl salicylate, is used in topical creams and massage blends because of its soothing properties to the skin. In fact, Wintergreen and Birch are the only plants in the world that contain methyl salicylate naturally. When diffused, Wintergreen has a refreshing, uplifting aroma to help enliven the senses. Through dōTERRA's Co-Impact Sourcing™ initiative, our Wintergreen comes from Nepal where it is wild harvested by rural villagers then distilled by community-owned distillation facilities. This process helps create increased economic opportunity for very remote regions in rural Nepal.

USES

- Wintergreen has a warming effect when applied to skin and is excellent as part of a soothing massage. A little goes a long way, so use sparingly and dilute with a carrier oil to minimise any skin sensitivity.

DIRECTIONS FOR USE

Diffusion: Use one to two drops in the diffuser of choice.

Topical use: Apply one to two drops to desired area.

Dilute with a carrier oil to minimise any skin sensitivity.

See additional precautions below.
