PRODUCT DESCRIPTION

Blue Lotus Touch combines Fractionated Coconut Oil with Blue Lotus, a precious extract that's been widely celebrated throughout history in Egyptian culture, art, and ceremonies.

The blue lotus is a majestic deep blue flower with a vibrant yellow centre. It's often referred to today as a water lily—a symbol representing long life, health, honour, and good luck.

Egyptian paintings represent the blue lotus, or *Nymphaea caerulea*, as a sacred and even magical flower. It has been known to help a person rise up to a higher level of consciousness.

Blue Lotus Touch can be used in a massage, as a meditation aid, and for overall skin hydration. It also makes an enchanting personal fragrance.

Blue lotus grows best in small ponds in high humidity. Sourced in Asia, the rare blossoms are collected by local families early in the morning when the delicate petals are fully open to the

sun. Thanks to a dōTERRA Co-Impact Sourcing® partnership, local farmers can now make a living and raise families by growing and harvesting the flowers used in Blue Lotus Touch.
