xEO MEGA®

Essential Oil Omega Complex

Support your body's natural defences with dōTERRA xEO Mega®.

In today's busy and fast-paced world, it's not always possible to get the nutrients our body's immune system needs to defend itself. dōTERRA xEO Mega® is formulated to support our immune system when our dietary intake is lacking. The unique formula of omega-3 fatty acids and fat-soluble nutrients is designed to support your immune system health, and support cardiovascular health and brain function. It also contains dōTERRA®'s CPTG® essential oil blend.

PRIMARY BENEFITS

dōTERRA xEO Mega® is a blend of omega-3 fatty acids and fat-soluble nutrients. It is formulated to support the functioning of a healthy immune system.

- Supports healthy immune system function
- Helps reduce free radical damage to body cells

Not only is dōTERRA xEO Mega® great for immune support, its marine-sourced omega-3 fatty acids may also:

- Support heart and cardiovascular system health
- Support brain function

PRODUCT DESCRIPTION

dōTERRA's xEO Mega® is a special formula of marine omega-3 fatty acids, carotenoids, and vitamin D3 and E combined with a proprietary CPTG® essential oil blend. EPA and DHA omega-3 fatty acids which support brain function and cardiovascular system health.

xEO Mega® also includes vitamin D, vitamin E, and astaxanthin. Formulated to be used daily with Alpha CRS+ and Microplex VMz®. Essential Fatty Acids (EFAs) are nutrients required for many functions in the human body. While some fatty acids can be produced inside the body, "essential" fatty acids cannot be produced by our bodies; therefore, we rely on the food we eat to supply these important nutrients. xEO Mega® contains omega 3 fatty acids.

ASTAXANTHIN AND VITAMIN E

xEO Mega® includes the carotenoid astaxanthin and Vitamin E. Vitamin E supports the health and function of the cardiovascular and immune systems.

Vitamin E is a fat-soluble antioxidant helping to protect the polyunsaturated fatty acids in cell membranes from free radical damage.

VITAMIN D

Vitamin D is a fat-soluble vitamin present in foods such as fish, beef liver, cheese, egg yolks, and fortified dairy products. Sunlight can help activate coelcalciferol generation (a Vitamin D precursor), which is converted to active Vitamin D within the body.

Vitamin D is important for bone health, supporting the development and maintenance of strong, healthy bones. Vitamin D also supports the health and function of the immune and nervous systems and is important for cardiovascular health. Vitamin D is mainly produced in our skin by a reaction that requires sunlight. People who limit their exposure to sunlight may require Vitamin D supplementation. xEO Mega® contains omega-3 fatty acids and other fat-soluble nutrients that help support the health and function of the cardiovascular, nervous and immune systems and eyes. Containing DHA, which is one of the most abundant fatty acids in the brain, which is required for normal/healthy brain function. xEO Mega® is formulated to be used daily with Alpha CRS+ and Microplex VMz®.

DIRECTIONS FOR USE

ADULTS: Take 1 capsule three times daily with water before meals or as directed by your healthcare professional.

Contains fish and soya bean products.

Do not use if inner foil liner is missing or broken. Store below 25°C.

WARNINGS
