- + Power Source: DC 5V 1A and 3.7V 800mAh battery
- + Normal mode — indicator light is blue
- + High mode — indicator light is green
- + Comes with USB Cable

## Description

A small, motion-activated diffuser that enhances any decor, Bubble Salt Diffuser captures the soft white beauty of salt crystals in their purest form. Designed to hibernate until it detects movement, its infrared motion sensor has a 4-meter range, a 120-degree field of view, and quietly releases your favourite oil or blend into the air whenever someone enters the room. This powerful mini diffuser operates without water and in two mist modes, normal and high, so you can create the perfect aroma ambiance. It uses 5 mL and 15 mL dōTERRA essential oil bottles and can fill a 10 square meter room. The diffuser runs up to 12 hours on a charge and an indicator light flashes when it's time to be recharged with the provided USB Cable. With its small, compact design, the Bubble Salt Diffuser is inconspicuous and suits any space.

The diffuser comes with a 15 mL bottle of Mālama Blend, a sparkling combination of bright citrus, enchanting floral, and centering wood aromas. The blend captures the magic and energy of Hawaii and its people. Let this blend be your daily reminder to mālama—nurture and take care of— yourself, your communities, and your environment.

## Cautions

**Mālama Blend:** Possible skin sensitivity. Keep out of reach of children. If you are pregnant, nursing, or under a doctor's care, consult your physician. Avoid contact with eyes, inner ears, and sensitive areas. Avoid sunlight or UV rays for up to 12 hours after applying product.

**Bubble Salt Diffuser:** The following oils and blends should not be used with the Bubble Diffuser: Balance, Sandalwood, Vetiver, Blue Tansy, Citrus Bloom. See diffuser manual and product label for cautions, instructions and additional information.
