Application: **A** **T** **N**

Ingredients: Fractionated Coconut Oil and Vanilla Absolute

Aromatic Description: Rich, creamy, sweet

Main Chemical Composition: Vanillin

Madagascar Vanilla | *Vanilla planifolia* 5 mL
60218204

Primary Benefits

- + Rich, warm, sweet, complex aroma
- + Creates a comforting and relaxing atmosphere
- + Refreshing, airy aroma

Description

Prized since ancient times, and often used in perfumes, vanilla is one of the most popular aromas in the world, and one of the most expensive to produce. Plant blooms must be hand pollinated, and it takes three to four years for the vanilla plant to begin producing beans that must be harvested by hand. The beans go through a time-consuming and labor-intensive process to preserve the rich vanilla aroma in the resulting absolute. We combine this absolute with Fractionated Coconut Oil, resulting in the divine-smelling dōTERRA Madagascar Vanilla.

Why should I add Madagascar Vanilla to my collection? Familiar and nostalgic. Evocative and romantic. Fill your home with comforting magic by adding Madagascar Vanilla to your favorite diffuser blend. Use as a captivating personal fragrance or add a few drops to a bath oil or body lotion to enjoy a luxurious moment as you breathe in the exquisite aroma of Madagascar Vanilla.

Uses

Cosmetic

- + Use one drop of Madagascar Vanilla absolute as the base for a captivating personal fragrance.
- + Add a few drops of Madagascar Vanilla to a warm bath.
- + Blend Madagascar Vanilla into a body lotion for a decadent moisturizing experience.

Household

- + Diffuse by adding to a favorite CPTG® essential oil or oil blend.

Directions

Diffusion: Add two to three drops to your favorite essential oil blend.

Topical use: Apply one to two drops to desired area. Dilute with a carrier oil to minimize any skin sensitivity. See additional precautions below.

Cautions

Possible skin sensitivity. Keep out of reach of children. If you are pregnant, nursing, or under a doctor's care, consult your physician. Avoid contact with eyes, inner ears, and sensitive areas.
