

MetaPWR[®] | Assist Capsules

Dietary Supplement

Serving Size: 1 capsule

30 Capsules

60219598

Primary Benefits

- + Helps support healthy glucose levels.
- + Source of antioxidants that help protect cells from the oxidative damage of free radicals.

Ingredients

Medicinal Ingredients: White mulberry leaf extract (*Morus alba*; standardized to 12.5 mg 1-deoxynojirimycin), Berberine (Berberine hydrochloride), Saigon Cinnamon (*Cinnamomum loureirii*) bark powder

Non-Medicinal Ingredients: Maltodextrin, Hypromellose, L-Leucine, Stearic acid, Silicon dioxide, Grapefruit oil coldpressed, Lemon essential oil, Peppermint oil, Zingiber officinale (Ginger) root oil, *Cinnamomum zeylanicum* bark essential oil

Description

MetaPWR Assist Capsules serve as an excellent addition to good dietary habits when taken before the largest meal of the day. Each capsule contains standardized mulberry leaf extract, berberine, cinnamon bark powder, and the proprietary MetaPWR[™] essential oil blend. NPN 80121205

Developed with dōTERRA clinical researchers, MetaPWR Assist Capsules utilize an innovative process to maximize the active component in mulberry leaf extract: 1-deoxynojirimycin (DNJ), to help support healthy glucose levels when taken in conjunction with good dietary habits. With the addition of cinnamon bark powder, these capsules are also a good source of antioxidants.

Like all products in the MetaPWR[™] line, MetaPWR Assist Capsules are designed to support a wide range of personal dietary habits without compromising your goals.

+ No GMO	+ No Soy	+ No Preservatives
+ No Dairy	+ No Gluten	+ No Artificial Sweeteners or Flavors

Directions

Take 1 capsule per day with food a few hours before or after taking other medications/natural health products. For occasional use only.

Cautions

Consult a healthcare practitioner prior to use if you have diabetes, liver disease or cardiovascular disease, or if you are taking other medications or natural health products as berberine is known to affect the metabolism of numerous drugs. Do not use this product if you are pregnant or breastfeeding. If you experience sweating, paleness, chills, headaches, dizziness and/or confusion, discontinue use and consult a healthcare practitioner (as these may be symptoms of serious low blood sugar). May cause gastrointestinal discomfort such as constipation, vomiting, abdominal pain or diarrhea, in which case discontinue use and consult a health care practitioner. Stop use if hypersensitivity/allergy occurs.
