CPTG Certified Pure Tested Grade®

Application: A T D

Plant Part: Leaf

Extraction Method: Steam distillation

Aromatic Description: Earthy, sharp, pungent

Main Chemical Components: Eucalyptol,
 α -pinene

PRODUCT DESCRIPTION

Niaouli is a large evergreen tree native to Australia. These distinctive trees have a unique, flaky trunk and five-inch long leaves with yellow-tinted flowers that flourish in tight spikes at the ends of the branches and. These physical attributes give the tree various nicknames including paperbark, paperbark tea tree, and bottlebush. Niaouli essential oil is steam-distilled from the long, gentle leaves of this giant tree. Niaouli is unique, powerful, and cleansing! A relative of Tea Tree, Niaouli has a sweeter, woody aroma and a unique chemistry particularly clarifying to the skin. Due to its eucalyptol content and composition of monoterpenes, it has an enlivening aroma. Widely used in a variety of cosmetics such as lotions, creams, soaps, and toothpastes, Niaouli helps keep skin and mouth healthy-looking and clean.

USES

Cosmetic:

- Add one drop to an adult facial cleanser or toothpaste for an invigorating clean
- Combine one to two drops with a carrier oil and use in a relaxing massage to target specific areas

Household:

- Combine with favorite cleaning spray to leave behind a sharp, earthy aroma
- Diffuse three to four drops for a uniquely rejuvenating aroma

DIRECTIONS FOR USE

Diffusion: Use three to four drops in the diffuser of your choice.

Topical use: To apply topically, dilute one drop essential oil to ten drops carrier oil. See additional precautions below.

CAUTIONS

Possible skin sensitivity. Keep out of reach of children. If you are pregnant, nursing, or under a doctor's care, consult your physician. Avoid contact with eyes, inner ears, and sensitive areas. For external use only.
