60228574

Primary Benefits

- + Hydrates and moisturizes skin
- + Calms and comforts dry skin
- + Provides a relaxing, uplifting rose aroma

Description

Invite the gentle beauty of roses into your day with the Rose Duet. dōTERRA brings you two delightful additions to your daily skin care, with soothing, refreshing Rose Hydrosol Mist and comforting, hydrating Moringa Rose Oil.

Rose Hydrosol Mist is a light, refreshing addition to your daily skincare, gentle on the skin while providing a rosy-floral aroma. This luxurious mist is created with damascena rose petals using hydro-steam distillation at our facility in Bulgaria, Terra Roza. Rich with the constituent geraniol, the hydrosol provides the skin with a refreshing misting of moisture and gives the complexion a healthy-looking radiance.

Moringa Rose Oil gently melts into skin for ultimate hydration, promoting healthy, glowing firm skin. Oil from the seeds of the moringa tree, rich in oleic and other fatty acids, is combined with CPTG® Rose essential oil for a luxurious facial oil that helps balance moisture levels in the skin and promotes an even, healthy-looking complexion.

When Rose Hydrosol Mist and Moringa Rose Oil are used together, this Rose Duet creates a routine of synergistic harmony for your skin.

Refer to individual PIPs for uses, directions, ingredients and cautions.
