 - EPA and DHA contribute to the normal function of the heart.
- **Docosahexaenoic acid (DHA)**
 - DHA contributes to the maintenance of normal vision.
 - DHA contributes to the maintenance of normal brain function.

PRODUCT DESCRIPTION

EO Mega+ is a premium blend of omega fatty acids from wild fish caught in the Nordic Seas. It is developed with Lemon essential oil, abundant in limonene, and extra virgin olive oil available through Co-Impact Sourcing™ partners in Greece. Our Co-partnership with Norway combines traditional knowledge, modern technology, and expertise to provide the cleanest, purest, traceable fish oil possible. Each serving provides over 5,000 mg of fish oil, containing 1,000+ mg of essential omega-3 fatty acids, including EPA (eicosapentaenoic acid) and DHA (docosahexaenoic acid). Essential fatty acids are crucial nutrients with exceptional benefits, and since the body cannot produce them alone, they must be obtained through diet or supplements. That's where EO Mega+ fills this nutritional gap by providing a convenient source of essential fatty acids in compact sachets to enjoy omegas anywhere on-the-go, as nature intended.

DIRECTIONS FOR USE

Take 1 sachet per day with or without food or as directed by your health professional. Tear or cut along perforation and squeeze directly into the mouth, place onto a spoon, or add to water. Do not freeze or heat.

CAUTIONS

Keep out of reach of children. Do not exceed recommended daily dose. Food supplements must not replace a varied and balanced diet and healthy lifestyle. Pregnant or nursing women and people with known medical conditions should consult a physician before using.

Allergens: Fish oil.
