

PRIMARY BENEFITS

- Rechargeable battery, so you don't have to worry about finding a nearby plug socket.
- Customisable output – four-hour continuous and up to eight hours of intermittent diffusion.
- Responsibly created, incorporating eco-friendly materials.
- Comes with carrying case, car adapter and 24-month warranty.
- Bright, warm ambient light.

PRODUCT DESCRIPTION

Introducing the Pilot diffuser, the portable diffuser that can go everywhere that you do – in the car, to work or just around your home. Convenient and mess-free, Pilot is perfect for smaller spaces. Rechargeable, with four-hour continuous diffusion or up to eight hours of intermittent diffusion, the new Pilot allows the user to customise the release of CPTG Certified Pure Tested Grade essential oils into the air. The diffuser's compact, neutral design complements every setting. Pilot comes with a dual-port USB 2.4A car adapter for easy recharging as well as a carrying case for travel.

FILLING YOUR DIFFUSER

- Use clean, room-temperature tap water. Make sure the water level does not exceed the water mark.
- Add 5–12 drops of dōTERRA essential oils. You can add more oil for a stronger scent. Experiment with the amount of oil you use and find what works best for you.

CLEANING YOUR DIFFUSER

Cleaning is a necessary step to ensure that oil residue doesn't build up in your machine, preventing it from working properly. It is a good idea to periodically clean your diffuser. To do so, do the following:

1. Fill your diffuser half way with clean water.
2. Add 10 drops of white vinegar.
3. Let the diffuser run for about 5 minutes to allow the water-vinegar mixture to disperse throughout the unit and clean it.
4. Drain the diffuser completely.
5. Using a cotton swab dipped in vinegar, clean the tight spots and corners of the diffuser.
6. Rinse with clean water.
7. Use a dry cloth to wipe the diffuser and dry it thoroughly.

CAUTIONS

See diffuser manual for cautions and instructions.
