

dōTERRA Roam Diffuser

dōTERRA™ | EUROPE

PRODUCT INFORMATION PAGE

PRIMARY BENEFITS

- Allows for cord-free use.
- Responsibly designed with eco-friendly recycled resin.
- Beautiful, unique design featuring ground natural stone.

PRODUCT FEATURES

- Cord-free and battery-powered options (battery charging dock included).
- Includes both continuous and intermittent (5 minutes ON, 5 minutes OFF) output.
- When powered by the adapter enjoy up to 5 hours continuous output or 10 hours intermittent output.
- When powered by the battery enjoy up to 4 hours continuous output or 8 hours intermittent output.
- Ambient white, warm, and cyan light options.
- Gently mists a room up to 25 m² and has a water capacity of 100 ml.
- Automatic safety shut off.

PRODUCT DESCRIPTION

The outer shell of the dōTERRA Roam Diffuser is made with natural, polished ground stone, making each diffuser unique. The rest of the diffuser is made from an eco-friendly post-consumer recycled resin, which adds to its simple, natural beauty. With its powerful built-in rechargeable battery and accompanying charging dock, the dōTERRA Roam Diffuser brings you an unprecedented wireless and portable diffusing experience – perfect for any room in your home or office!

FILLING YOUR DIFFUSER

- Use clean, room-temperature tap water. Make sure the water level does not exceed the water mark.
- Add 5–12 drops of dōTERRA essential oils. You can add more oil for a stronger scent. Experiment with the amount of oil you use and find what works best for you.

CLEANING YOUR DIFFUSER

Cleaning is a necessary step to ensure that oil residue doesn't build up in your machine, preventing it from working properly. Periodically, it is a good idea to run your diffuser through a cleaning cycle. If you use your unit every day, then running a cleaning cycle monthly is a good idea. To do so, do the following:

1. Fill your diffuser half way with clean water.
2. Add 10 drops of white vinegar.
3. Let the diffuser run for about 5 minutes to allow the water-vinegar mixture to disperse throughout the unit and clean it.
4. Drain the diffuser completely.
5. Using a cotton swab dipped in vinegar, clean the tight spots and corners of the diffuser.
6. Rinse with clean water.
7. Use a dry cloth to wipe the diffuser and dry it thoroughly.
