

# Clove

A T I D

## SOURCED FROM:

### FUN FACT

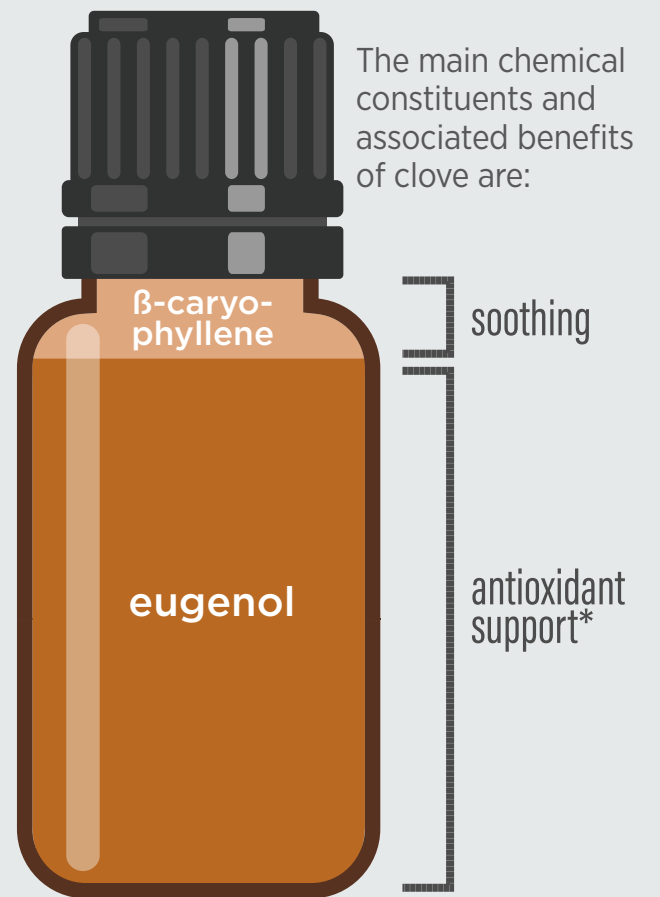

Clove oil is distilled from buds on an evergreen tree that turn bright red when they are ready to be harvested.

## WHAT IT TAKES TO MAKE A BOTTLE:

It takes 6.8 pounds of clove bud to produce 15 mL of Clove essential oil.

## CHEMISTRY:

The main chemical constituents and associated benefits of clove are:

Graph represents chemical compounds most prevalent in this essential oil. Additional constituents may be found.

## RESEARCH:

# 365

Published studies on the benefits of clove

Numbers according to PubMed as of December 2017

## FUN FACT

The word "clove" comes from the Latin word "clavus," meaning nail. This name presumably comes from the shape of clove buds, which look like small tacks.

## WORKS WELL WITH:

dōTERRA®
