

IKISE™ Intensive Eye Cream

dōTERRA®
Product Information Page

IKISE
Intensive Eye Cream | 20 g

Primary Benefits

- + Formulated with moisturizing ingredients like squalane, shea butter, beeswax, and arnica flower extract.
- + In consideration of the environment, this container is made with plant-based plastic

*Moisturizing agents

Description

This eye cream features a lamellar structure* that quickly absorbs into the delicate skin around the eyes. This rich hydration cares for the delicate eye area, softening signs of dryness and helping to create a firmer, more defined look.

*The lamellar structure, like a mille-feuille, alternates layers of oil and water. It is also present in the skin's stratum corneum, playing a role in retaining moisture while protecting against external irritants.

Naturally derived index 93% (including water)

ISO 16128 compliant

Allergy tested (This does not guarantee that all users will be free from allergic reactions.)

Directions

Apply an appropriate amount (about the size of a grain of rice) to the eye area. Use it as the final step in your morning and evening skincare routine.

Cautions

For external use only. Avoid contact with eyes, if product gets into your eyes, rinse immediately. Discontinue use if skin irritation occurs. Do not use on broken skin or sensitive areas such as inside of ears. Store in a cool dark place, and out of reach of children.
