Primary Benefits

- + Promotes the appearance of clear, healthy skin
- + Gives hair a vibrant, healthy shine

Description

A member of the *Pelargonium* genus, geranium is grown for its beauty and is a staple of the perfume industry. While there are over 200 different varieties of *Pelargonium* flowers, only a few are used as essential oils. Uses of Geranium essential oil date back to ancient Egypt when Egyptians used Geranium oil to beautify skin. In the Victorian era, fresh geranium leaves were placed at formal dining tables as decorations. Today edible leaves and flowers of the plant are sometimes used in desserts, cakes, jellies, and teas. As an essential oil, Geranium has been used to promote the appearance of clear skin and healthy-looking hair—making it ideal for skin and hair care products. The aroma helps create a calm, relaxing atmosphere.

Uses

- + Use in a steam facial to beautify skin.
- + Add a drop to your moisturizer for a smoothing effect.
- + Include a few drops in shampoo or conditioner.
- + Diffuse aromatically for a calming effect.

Directions

Aromatic use: Add 3 to 4 drops to the diffuser of choice.

Topical use: Apply 1 to 2 drops to desired area. Dilute with a carrier oil to minimize any skin sensitivity.
