

MetaPWR[®] | Metabolic Assist Capsules
Nutraceutical

60230037

Primary Benefits

- + Support steady energy levels after meals and may help maintain glucose level.
- + May reduce the absorption of simple carbohydrates and sugar
- + May support a healthy metabolic profile
- + May contribute to healthy fat metabolism
- + Provides three times the active component—1-deoxynojirimycin (DNJ)—typically found in mulberry leaf extract supplements
- + Patent pending formula

Description

MetaPWR Assist can be a powerful addition to a daily metabolic health regimen when taken daily before the largest meal of the day. Each capsule contains standardized mulberry leaf extract, berberine, cinnamon bark powder, and the proprietary MetaPWR[®] Metabolic Blend. Developed with dōTERRA clinical researchers, this blend uses a superior process to maximize the active component in mulberry leaf extract, 1-deoxynojirimycin (DNJ). Because it contains DNJ, mulberry leaf extract can help regulate blood glucose levels, reduce the absorption of carbohydrates and sugar, and contribute to healthy fat metabolism.

MetaPWR Metabolic Assist Nutraceutical—part of the MetaPWR Metabolic System—is created to support healthy lifestyle regimens focused on metabolic health, increased energy, and vitality to add health to your lifespan.
