

PB Assist+®

Botanical Beverage Mix
Apple with Probiotics

A HEALTHY GUT IS THE FOUNDATION OF OVERALL WELL-BEING!

Boosted with a powerful blend of 5 billion colony-forming units (CFU) of live probiotic cultures, dōTERRA takes it a step further by increasing the count to a whopping 12 billion live probiotic cultures! This enhanced formulation supports a healthy gut microbiome, promoting better digestion and overall well-being.

PRODUCT DESCRIPTION

PB Assist+ is a delicious apple powder enhanced with synergistic blend of bifidus and lactobacillus from Japan and France including *Bifidobacterium longum* BB536, *Bifidobacterium breve* M-16V and *Lactobacillus rhamnosus* GG. Further addition of dietary fibre Inulin, mastic powder and Red Berries that complement well with your daily diet.

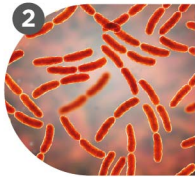

INGREDIENTS

Bifidobacterium longum BB536 and *Bifidobacterium breve* M-16V

Provides a consistent beneficial effect in improvement of gastrointestinal conditions, maintenance of intestinal microflora balance, regulation of immune response, and protection against microbial infections.

Lactobacillus rhamnosus GG

Friendly probiotic microorganisms that supports healthy colonies of friendly microflora in the gut by promoting healthy colonization and function higher in the intestinal tract.

Mastic Powder

Traditional Greek Medicine for relieve of diverse gastrointestinal disorders for >2500 years.

Red Berries including Elderberry, Blackcurrant and Chokeberry

Rich in anthocyanin as immune booster. High in anti-oxidants. Scientifically proven to reduce the total duration & severity of upper respiratory tract symptoms.

Dietary Fibre Inulin

Serves as a food source to boost the number of beneficial bacteria with permitted health claim under Ministry of Health (MOH).

WHAT MAKES PB Assist+[®] UNIQUE?

dōTERRA Malaysia PB Assist+ is a proprietary blend of three active strains of friendly probiotic microorganisms that support healthy colonies of friendly microbiota in the gut. PB Assist+ includes active strains of *Bifidobacterium longum* BB536, *Bifidobacterium breve* M-16V, and *Lactobacillus rhamnosus* GG to increase the number of good bacteria and to maintain our gut health, and Chios Mastiha for relieve of diverse gastrointestinal disorders and antioxidant.

Freeze drying processing technology at low temperature of probiotic helps to provide better stability of the probiotics even at room temperature.

Primary Benefits

- Alleviate occasional stomach upset
- Shape healthy gut microbiota
- Enhance intestinal environment
- Increase the growth of beneficial bacteria
- Support immune function

DIRECTIONS FOR USE

In the first month, it is recommended to take 2 sachets daily. From the second month onwards, it is recommended to take 1 sachet daily. Pour contents of sachet directly into mouth or mix with water, juice, or preferred beverage and drink immediately. Do not mix with hot water.

CAUTIONS

Some people may experience change of digestion patterns during the first trial of prebiotic and probiotic. For most people, these symptoms are mild and should disappear after a few days. Pregnant or nursing women and people with known medical conditions should consult a physician before using. Do not use if the box or sachet is opened.

Note: Although the PB Assist+ freeze-drying processing technology makes it unnecessary to refrigerate, it is suggested that opened and unopened PB Assist+ to be stored in a cool, dry place that is below 25°C. Keep away from direct sunlight.
