

KUMQUAT

Fortunella japonica 5 mL

Citrus, clean, fresh, sweet

Aromatic description

PRIMARY BENEFITS

- Diffuse for an uplifting aroma

PRODUCT DESCRIPTION

Indigenous to Asia, the Kumquat fruit is the size of a large olive and can be eaten whole with the peel. The peel has been described as being sweet and the flesh sour. The peel produces a versatile essential oil.

Also known as Citrus japonica, kumquat essential oil is filled with limonene—the same main chemical component as Lime, Wild Orange and other citrus essential oils. Because of this, they share many of the same features and benefits and can often be used interchangeably.

The aroma of Kumquat is well-suited to uplift mood, invigorate the mind and help provide a new perspective when tackling daily challenges.

USES

- Combine in a diffuser with Lemon, Lime, Wild Orange or Bergamot essential oils for a refreshing citrus aroma.
- Diffuse for cleansing and invigorating aroma.

DIRECTIONS FOR USE

DIFFUSION: Use one to two drops in diffuser of choice.

FOOD FLAVOUR USE: Add one or two drops to food.
