COPAIBA^{15mL}

A Aromatic **T** Topical

S Sensitive—Dilute for young or sensitive skin

Uses & Benefits:

- Copaiba has a high level of beta-caryophyllene, which is also present in Black Pepper essential oil to help soothe anxious feelings such as stress or worry.
- Diffuse in your room and focus on the scent to fall into a meditative state.
- Use in a calming bath by adding 2 to 3 drops to body wash before mixing it in the water.
- Promotes clear, smooth skin and reduces the appearance of blemishes.
- Add Copaiba to your toner and apply to face in upward circular motions or apply directly to your skin before applying moisturiser.
- Create your own personal fragrance! Copaiba blends well with Roman Chamomile, Cedarwood, Sandalwood, Frankincense or Ylang Ylang. Experiment and make adjustments with any of these oils that appeal to you. Add them into a roller glass bottle and fill the rest with Fractionated Coconut Oil.
- May benefit immune system and health when applied topically.
- May promote healthy respiratory system.
- May help keep the mouth, teeth, and gums clean and healthy looking.
