

## What is TriEase®?

TriEase Seasonal Blend Softgels were developed to protect against the change in seasonal and environmental elements. TriEase aims to get ahead of the discomforts associated with seasonal or weather shifts by arming you with a natural and effective solution especially beneficial for frequent travelers.

The key function of TriEase is to promote a healthy respiratory system by combining three of the most potent essential oils to support an overall healthy immune response and the ability to maintain clear breathing.

Experienced essential oil users are well aware of the combination of Lemon, Lavender and Peppermint oil, as it is one of the most common and powerful DIY blends.

The synergistic effect of these oils target to address seasonal discomfort. With the occasional change of weather in the country, or for frequent travelers transiting into different seasons between countries, many people may experience some discomfort. TriEase is designed to provide seasonal and environmental protection in a convenient and easy to use form to be consumed on-the-go!

## What does TriEase contains?

### Lavender

Scientifically known as *Lavandula Angustifolia*. Lavender is the most used essential oil in the world and is a must have oil to keep on hand at all times due to its versatile uses due to its powerful antioxidant, antimicrobial, relaxing and calming properties.

**Primary Benefits:**  
Helps ease feelings of tension and anxiousness and promotes a restful night's sleep.

### Lemon

Scientifically known as *Citrus limon*. Popular for its cleansing and purifying properties. It is a powerful antioxidant that naturally cleanses the body, boosts energy levels and soothes digestive issues.

**Primary benefits:**  
Naturally cleanses the body and aids in digestion, supports healthy respiratory function and promotes a positive and healthy boost throughout the day.

### Peppermint

Scientifically known as *Mentha piperita*. A high menthol content that is found only in dōTERRA's Peppermint - distinguishes the best quality Peppermint from others. Peppermint also contains antimicrobial properties which can soothe digestive issues. Other benefits includes alleviating occasional stomach upset and promoting a healthy respiratory function.

**Primary Benefits:**  
Promotes clear breathing, may ease nausea and motion sickness and relieve restlessness.

## Uses and Benefits

- Contains equal parts of Lemon, Lavender and Peppermint essential oil
- Supports healthy respiratory function
- Provides defense against season and environmental threats
- Promotes clear breathing
- Includes powerful cleansing properties to cleanse the body's systems
- Calming and balancing effects for the body
- Convenient, easy to use
