

Turmeric Dual Chamber Capsules

dōTERRA®
Product Information Page

Turmeric Dual Chamber Capsules | Dietary Supplement | 60 Capsules

Primary Benefits

- + Combines the complementary benefits of both turmeric essential oil with the joint support of the curcuminoids of turmeric extract in a unique and convenient delivery system.
- + May help support a healthy inflammatory response in the body.
- + May help the body fight free radicals and protect the body from oxidative damage.

Product Description

dōTERRA is the first to combine CPTG® Turmeric essential oil and Turmeric extract in a dual chamber capsule, creating a uniquely powerful synergy of tumerones and curcuminoids, in order to maximize the effectiveness and benefits of both compounds for a healthy inflammatory response.

Derived from a plant that is a member of ginger family and a key botanical of the traditional Ayurvedic health practices of India, Turmeric essential oil and extract have a long history that has inspired many modern uses of Turmeric today.

Directions

Take two Turmeric Dual Chamber Capsules daily needed to support an active lifestyle

Cautions

Keep out of reach of children. If you are pregnant, nursing, or under a doctor's care, consult your physician. Do not use if safety seal is broken or missing. Store in a cool, dry place.

Turmeric Essential Oil

Steam distilled from the turmeric root, Turmeric essential oil has two unique chemical components, Turmerone and ar-Turmerone. Most commonly known for their nervous system and emotional benefits, these components make Turmeric essential oil a staple in your daily health routine.

Turmeric Extract

Turmeric extract may be one of the most effective nutritional supplement in existence because it contains curcuminoids that help the body fight free radicals and have a role in protecting against oxidative damage. An important benefit of Turmeric extract is its ability to maintain a healthy inflammatory response at the molecular level.

Dual Chamber Capsules

Research has shown that curcuminoids have poor bioavailability, but when combined with turmerones from Turmeric essential oil bioavailability can be increased. The dual chamber capsules are truly unique because they combined key ingredients together in one convenient delivery system, resulting in better absorption of Turmeric. Unlike other brands that combine Turmeric extract with agents like black pepper extract, the dual chamber capsule is a more natural approach.

Along with healthy diet, regular exercise, and good sleep, dōTERRA's Turmeric Dual Chamber Capsules add a natural one-two punch in the fight against free radicals and providing a healthy inflammatory response in the body.
