The dōTERRA Emotional Aromatherapy System

Emotional Aromatherapy. Emotions are the results of complex psychological and sensory stimuli including smell. Fragrances associated with positive or negative experiences can last in our memories and alter our emotions for a lifetime. Aromatherapy is the use of fragrances to manage emotions and enhance feelings of well-being. Modern scientific study of the influence of aromatherapy on emotion is confirming what people of the world have known for centuries: the delicate and complex aromatic compounds of pure essential oils can be used effectively to help balance emotions and brighten mood.

The dōTERRA Emotional Aromatherapy System is a revolutionary organization of aromatic plant families around a continuum of emotions for a simple, profound approach to using fragrant essential oils in emotional aromatherapy applications. Individual essential oils can be used with great effectiveness by skilled aromatherapists for a variety of emotional issues. dōTERRA makes emotional aromatherapy easy and accessible for anyone dealing with common negative emotions with a new line of proprietary essential oil blends representing six categories of emotional well-being.

As essential oil chemistry is naturally complex and each person is unique in their response to specific aromas, you may also personalize your aromatherapy applications by using single doTERRA essential oils from the aromatic plant families corresponding to the emotions found on the system wheel—naturally safe and simple.
