

dōTERRA®

# Natural Intelligence

Returning to the Wisdom of Nature

## Wellness by Design

The body responds.

Nature provides.

You were designed well.

This class is about returning to simple natural tools that support your body instead of overriding it.

## A Simpler Way to Think about Wellness

Your body isn't broken. It's responsive.

When supported well, it's designed to:

Regulate

Repair

Restore

Essential oils are a powerful way to support these natural processes.

## What Are Essential Oils?

Essential oils are aromatic compounds found naturally in plants.

They're:

- Extracted from barks, leaves, flowers, and resins.
- Highly concentrated.
- Known for their beneficial properties.

## How They Work

Because of their small molecules, essential oils can:

- Absorb quickly into the body.
- Interact at a cellular level.
- Support the body's natural responses.

They work with your body, not against it.

## Why Purity Matters

Not all essential oils are created equal.

doTERRA essential oils are:

- CPTG Certified Pure Tested Grade®.
- Tested rigorously for quality and consistency.
- Responsibly and sustainably sourced.

The dōTERRA DIFFERENCE—Impact Through Every Purchase and Impact Through Community Engagement

## Three Simple Ways to Use

### AROMATIC

Inhale or diffuse to support your environment and daily experience.

### TOPICAL

Apply to targeted areas of the body, diluting as needed, to support your body's natural processes.

### INTERNAL

Take internally when appropriate to support overall wellness from within.

THE BODY DOESN'T NEED TO BE FORCED—IT NEEDS TO BE SUPPORTED..
