BEHIND
THE
BOTTLE

Wild Orange

The morning sun casts its first light over vast, lush fruit groves. The oranges shine in the light, and the air is filled with the invigorating scent of citrus. In the fertile regions of southern Brazil and Greece, sweet orange trees stand tall, their branches heavy with ripe, delicious fruits to share.

Since ancient times across many cultures, the orange has been a symbol of love. We honor that tradition with how we lovingly bring you Wild Orange essential oil. Connection comes with every bottle.

Local growers—all skilled and passionate, and many continuing a family legacy—begin the day's work, handpicking the oranges that'll soon be transformed into one of the most cherished and versatile essential oils. The peel of the *Citrus sinensis* fruit provides high-quality Wild Orange. Known for its sweet, uplifting aroma, this essential oil is a bestseller and a staple in homes worldwide. Every drop of Wild Orange is infused with the essence of the sun-kissed groves and the dedication of those who tend them. But what makes Wild Orange truly exceptional isn't just the quality of the plant or people; it's the incredible process from plant to bottle.

Harvesting

Since its beginning, dōTERRA has built strong partnerships with local people in both Brazil and Greece to support long-lasting, ethical sourcing practices. These partnerships are more than just business transactions; they're our commitment to creating the best product and improving the lives of growers and distillers and their communities.

Orange harvesting is a labor-intensive effort that often begins early in the morning to take

advantage of cooler temperatures. Growers (men and women) harvest the fruits, with baskets turning into truckloads that are then transported to fresh markets or distilleries.

Distillation

Fresh fruits that won't sell on the market solely because of aesthetic deficiencies can still serve a beautiful purpose.

Most citrus oils are produced alongside a juicing operation. Juice comes from whole oranges, and the essential oil is cold-pressed from the fruit rinds. This approach is critical for creating pure and potent Wild Orange.

Impact

The approach is also a testament to the investment dōTERRA has in the world and its peoples. We work directly with experts in the field, not middle managers or large corporations. We create value with essential oil where before there would've been wasted fruit.

dōTERRA is dedicated to positive impact anywhere we go to gather the gifts of the earth. And Wild Orange is one of the most special gifts, blessing people on both sides of the bottle.

Benefits

Wild Orange essential oil is prized for its plethora of benefits and applications. Its classic bright and invigorating aroma can uplift and energize any space. It's also a powerful cleanser and kitchen ingredient, with just a few drops going a long way.

For some of the most popular uses for Wild Orange:

- Diffuse three to four drops to create a cheerful, energetic atmosphere and freshened air. You can also blend Wild Orange with other essential oils like **Peppermint**, **Bergamot**, **Frankincense**, and **Guaiaacwood**.
- Take one to two drops internally to support a healthy inflammatory response, as well as overall health.*
- Place 10–15 drops in a four-ounce spray bottle with water for a natural and effective cleaner.
- Add a burst of flavor to favorite recipes—just a couple drops can enhance smoothies, desserts, and savory dishes!

It can also be as easy as placing one to two drops in the palm of your hand, rubbing your hands together, cupping them over your mouth and nose, and inhaling for an enlivening aroma! The skin can also benefit from the cleansing properties of Wild Orange thanks to its high limonene content.

But citrus oils run the risk of photosensitivity, so it's best practice to make sure any skin where Wild Orange is applied avoids direct sunlight or UV rays for at least 12 hours afterward.

Wild Orange has such fantastic versatility, it's included in many dōTERRA products—everything from classic essential oil blends like **Adaptiv**® and **DDR Prime**® to hygiene items like the **Leave-in Conditioner** and even supplements like the new **EO Mega**®+ (find out more on page 12). Wild Orange fits almost anywhere!

Connection

Every bottle of Wild Orange tells a story of connection—to the earth, to the growers who nurture the groves and distillers who transform fruit into oil, to the communities who thrive because of mutually beneficial sourcing practices, and to you. When you use Wild Orange, you enjoy the highest quality of essential oil and become part of a larger story and mission to make a positive, lasting global impact.

So the next time you reach for Wild Orange essential oil, take a moment to remember (and bask in) the sunlit, vibrant groves and promise of a brighter future that the bottle represents. Let every drop remind you of the beautiful connection we share with the earth and with each other.

Emily's Essentials: Gifts of the Earth

Emily Wright is a dōTERRA Founding Executive and the chair of the board. She's been with the company from the beginning and still has a relentless desire to share dōTERRA essential oils with the world, while also lifting communities in sourcing areas and beyond.

Emily puts her whole heart into providing pure, potent essential oils, all aimed at fulfilling the dōTERRA mission. These are some of the essential products Emily can't go without, in her own words!

I was introduced to the world of essential oils 27 years ago. Essential oils were new to me at the time, and I was skeptical at first. After experimenting with them and having my own powerful experiences, I fell in love.

Today, I rely on these gifts of the earth for my well-being. Armed with essential oils and natural products, I am empowered to care for my body. I use them all throughout the day, every day. I use so many oils daily, and I incorporate others when I need additional support in an area of my life, whether it's physical, mental, emotional, or spiritual. Here are a few of my favorites!

MetaPWR Advantage

I never go a day without **MetaPWR Advantage**®. (I actually take two sachets a day!) I think of it as my "youth elixir" because of the way it activates and interacts with longevity genes.*

At a certain point, your body stops producing NAD+ and NADH, which are critical for youthful cellular function. MetaPWR Advantage contains NMN and resveratrol, which help increase production of those critical metabolic molecules in the body, according to preclinical research.*

I feel younger today than I did when we launched MetaPWR Advantage in 2022. I feel like I have more energy, better focus, greater strength and endurance—the list of benefits I've seen is long. Plus, the nine types of collagen tripeptides are powerful for skin elasticity and density, decreasing wrinkles.*

I truly feel like I am living my most powerful life with MetaPWR Advantage!*

Uses

As I said, I take MetaPWR Advantage every single day. My body needs the collagen and the cellular boost.* Based on preclinical research, we know more NAD+ in your body means everything works better.

I like mixing MetaPWR Advantage with **PB Assist+**® and **MetaPWR Recharge**® in a small amount of water. I call it my "glow shot"!

* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Yarrow|Pom

Yarrow|Pom is another product I love for its skin-rejuvenating and soothing benefits. I use it both topically and internally. The chemical constituent that gives Yarrow|Pom its iconic blue color is chamazulene. The chemistry of this essential oil blend is powerful, helping healthy cellular, immune, and nervous system function when ingested.*

Uses

I take Yarrow|Pom internally. I also apply it, **Lavender**, and **dōTERRA sun After Sun Restorative Body Spray** to my skin after a long day outside to help soothe and restore moisture to any overexposed skin.

Another combination I like is Yarrow|Pom and **Blue Tansy** to create synergistic benefits for my skin and tissue. That is a power-packed duo!

Immortelle

Immortelle Anti-Aging Blend is the one product I would bring with me if I were stranded on a deserted island. It's an essential oil blend with amazing skin-beautifying properties.

I cannot live without Immortelle—I use it for so many things that my bottle is always running out!

Uses

Immortelle is a key part of my daily skincare routine in the morning. I apply it to my face, neck, and décolletage to help reduce the appearance of fine lines and wrinkles. I also like to apply Immortelle over the thyroid and brain stem. I even use it as a deodorant.

Did you know *immortelle* is another name for the helichrysum plant, which is one of the oils included in the blend?

Blue Lotus Touch

Blue Lotus Touch—known as the “oil of highest potential”—is another essential oil I use daily. For me, it’s a reminder that we can all rise to our highest potential, that we can live according to our highest ideals.

The blue lotus plant, which blooms in muddy ponds, teaches powerful lessons about your ability to rise above the muck of life and bloom radiantly and unapologetically!

Uses

I apply Blue Lotus Touch over my heart and on my wrists before I give presentations to open my mind and heart to inspiration.

Blue Lotus has a beautiful fragrance and serves as a wonderful base for personal blends. I combine it with **Magnolia** when I want a fragrance that is contemplative and calm or with **Jasmine** and citrus oils like **Bergamot** for a bright, vibrant aroma. And I wear it all on its own, of course!

Melissa

I use **Melissa** every day in my routine, but I especially turn to this incredible essential oil when I need extra help during big moments. There are many benefits associated with taking Melissa internally, like supporting a healthy inflammatory response.* I call Melissa the “oil of light,” because it helps me clear away the cobwebs from my mind and get my brain firing.

Uses

I rely on Melissa to help me set my intentions. I place a drop on my thumb and press it against the roof of my mouth, taking three deep breaths. This ritual helps me focus on what is most important. I do it every time I am about to take the stage for a presentation.

It's a powerfully motivating oil for me! I apply it before starting my morning workout. I also like to

create a tea of sorts with Melissa by adding two to four drops and one teaspoon of raw honey to warm water.

But when I need the motivation to move forward in a big way, I use both Melissa and Blue Tansy. I place Melissa on the roof of my mouth and apply Blue Tansy to my big toe (in reflexology, the big toe represents the brain). This routine helps me get unstuck and invites inspiration.

These are just some of my essential dōTERRA products that help me make the most of my day and feel my best!

dōTERRA | Healing Hands: Looking Ahead

Since its inception, dōTERRA has been a company deeply committed to giving back. Just two years after launching, the Founding Executives created dōTERRA Healing Hands®, which has since become an integral part of the company’s mission.

It's been 14 years since dōTERRA Healing Hands began. To celebrate its impact, we sat down with Misty Bond for a quick Q&A session.

Q&A with Misty Bond, Vice President of Corporate Relations and Philanthropy

Q: Misty, you've been with dōTERRA for a while now, and we're thrilled to see you stepping into this new role! Can you share a little about your background and what brought you to dōTERRA?

Misty: Thank you! My background is in public relations, with extensive experience in broadcast media, influencer marketing, campaign creation, online reputation management, and crisis communications. Most recently, I was at Purple Innovations,

where I focused on sleep hygiene and building impactful campaigns. Joining dōTERRA is incredibly exciting. I'm eager to further our mission of impactful giving.

Q: Reflecting on the past 14 years, what are some of the standout achievements of dōTERRA Healing Hands?

Misty: It's incredible to look back on the vast impact dōTERRA Healing Hands has had. From our humble beginnings, we've raised over \$56 million in the US alone, supporting countless projects in underserved communities around the world. Through dōTERRA, our fundraising initiatives extend to our international markets, raising millions more for humanitarian efforts worldwide.

Some of our notable achievements include building schools in Nepal, establishing medical clinics in Kenya, providing disaster relief in the Philippines, and supporting antihuman trafficking initiatives across several countries—that's just to name a few!

Of course, we can't talk about the success of dōTERRA Healing Hands without highlighting the contributions of incredible Wellness Advocates. Their participation has been essential to our success: engaging in Match Program projects, playing a vital role in distributing over 280,000 72-Hour Emergency Relief Hygiene Kits to date, and actively participating as members of the 25 Collective. Their dedication and impact have been truly remarkable.

There's no way to capture all the good we've done in just a few words, so I recommend you visit our timeline or skim through one of the impact reports to get the full picture. It's a story worth exploring!

Q: What excites you most about the future of dōTERRA Healing Hands?

Misty: dōTERRA Healing Hands is evolving! What excites me most is the opportunity to build on the incredible work that's been accomplished over the past 14 years, while also refining the focus and mission.

We're actively working on using innovative solutions and partnerships to address some of the world's most pressing challenges, especially in the regions where we source essential oils. I'm excited to bring even more attention and support to these communities.

A crucial part of this evolution is aligning overarching actions with a key element of our mission: self-reliance. By embracing the perspective of an organization dedicated to fostering self-reliance, we plan to concentrate even more on initiatives in

three key areas: education, health, and crisis relief. This focus will ensure our efforts provide long-term, lasting benefits to communities in need.

I'm also thrilled about the opportunity to connect with Wellness Advocates and customers, keeping them informed and inspired by the incredible impact of dōTERRA Healing Hands initiatives. As we move into the end of 2024 and start of 2025, you'll see even more stories and updates about the individuals and communities we're touching.

Q: What message do you have for the dōTERRA community and those who've supported dōTERRA Healing Hands over the years?

Misty: I want to extend a heartfelt thank-you to the entire dōTERRA community, whose Wellness Advocates have always been the heart of it all. Together, we've made real impacts in the lives of so many people worldwide.

Looking ahead, I encourage everyone to stay engaged and continue supporting our mission. There's so much more we can achieve together, and I'm excited for the journey ahead. Here's to many more years of making a difference!

Kids: All Set for the School Year

The final days of summer have wound down, and parents everywhere find themselves caught in the familiar whirlwind of the school year. From last-second supply runs to reorganizing schedules, there's a lot to juggle and adjust back into after months of munchkins at home!

A close-up photograph of a man with dark hair, wearing a blue t-shirt, looking down intently at a child's work. The child's arm and shoulder are visible in the foreground, and the background is softly blurred, suggesting an indoor setting like a home or school.

Amid the chaos that comes with getting back into the flow, your desire to ensure your kids not only survive but thrive in the upcoming school year stays strong. You're always on the lookout for ways to support your children's physical, emotional, and mental well-being, but it can be hard to know what works best when there are so many options and recommendations out there—especially online.

The good news? You can always turn to dōTERRA for natural, safe solutions, no matter the problem. Some thoughtful strategies to create the right learning environment, combined with the power of essential oils, can help your children excel.

Setting the Mood

It's an early autumn morning, and your house is buzzing with activity. Backpacks are lined up by the door, lunchboxes are filled, and the air is filled with a mix of excitement for another day and nerves over upcoming tests or hastily finished homework.

As you help your kids get ready, setting a positive tone for the day can make all the difference in how it goes. A small morning ritual before heading out the door can also go a long way. Combine the two ideas by rolling on an essential oil blend with a calming, clarifying aroma like **InTune**® or **Thinker**® (depending on which scent your little ones like better) to their wrists and the backs of their necks.

InTune and Thinker are both called "Focus Blend" for good reason. They're perfect for those first few weeks back when everything still feels new and a bit overwhelming.

Your children can rely on the aroma throughout the school day. If needed, either Focus Blend can be reapplied when they're back home and attention inevitably starts to wane, whether it's during homework or a challenging school project.

Creating a Productive Space

As you well know, homework and study time can be challenging, especially after a long day at school. Making a dedicated study space can help children transition into schoolwork more smoothly. Ensure the space has good lighting, comfortable seating, and minimal distractions, electronic or otherwise.

Diffusing **Spanish Sage** essential oil in the study area can be incredibly beneficial. Known for its ability to promote a positive atmosphere that's conducive to concentration, Spanish Sage can create an ideal environment for focused learning, helping your children stay on task and your day go smoother.

You can even have your little learners take Spanish Sage internally—just a drop in a **Veggie Cap** can assist with cognitive skills like memory and attention, as well as support a calm mind and a sense of alertness.* This essential oil can be a game changer during the hectic school year when kids are constantly learning and trying to retain new information.

Supporting Overall Well-Being

Seasonal threats during the colder months and the pressures of academic performance and social dynamics can lead to compromised well-being. Proactively staying on top of children's health is crucial for everyone to thrive during the school year—you and them.

Regular use of **Eucalyptus** essential oil blend can promote feelings of clear breathing and open airways. Diffusing or placing a few drops in the hands, covering the nose and mouth, and breathing deeply provides a cooling sensation to the airways and creates a calm atmosphere during stressful circumstances.

From your morning routine, you know Thinker is effective by itself, but it's even more powerful when used alongside the rest of the **Kids Oil Collection**. Made especially with children's unique needs in mind, each essential oil blend is prediluted with **Fractionated Coconut Oil** and ready for quick application and effect.

You can tackle everything from creating a confident, courageous atmosphere with **Brave**® to soothing the skin and stomach with **Tamer**®. The health challenges children face when they're getting into school are varied and numerous, so it's best to have a lot of natural tools in your toolkit that you trust and know are safe and effective.

Settling In

A good night's sleep is fundamental to every child's school success. Establishing a consistent bedtime routine signals it's time to unwind and prepare for rest. Talk with your kids and agree on the time and steps you'll follow each night: changing into jammies, brushing teeth, reading stories, or whatever else you decide on.

dōTERRA Serenity® Restful Blend creates a tranquil environment at bedtime. Placing three to four drops in a bedroom diffuser sets the right mood while reading a story or having a quiet conversation about the day. Or you can massage it into the bottoms of kids' feet to make unwinding at the end of the day a little smoother.

Extra Success Tips

- **Depending on your children's ages, encourage them to stay organized with planners or digital calendars.** This organization can help them manage their time effectively and reduce the stress of forgotten assignments or last-minute cramming.
- **Foster a greater love for reading to aid cognitive development.** Make reading a fun and consistent part of the daily routine, whether at bedtime or during dedicated family time.

- **Promote physical activity, especially as the summer heat dies down.** Regular exercise can boost your children's moods and improve their concentration. Consider family walks, bike rides, or even simple stretches in the morning to get everyone moving.
- **Remember that navigating the school year isn't just about academic success.** It's also about fostering emotional resilience and well-being. Encourage open conversations with your children about their day—their triumphs and their challenges. Let them know it's okay to feel nervous or overwhelmed and that you're there to support them every step of the way.

By weaving these strategies and essential oils into your day, you'll help your kids to thrive, making this school year the best one yet!

Your goal as a parent is to support your children's physical and cognitive health and provide them with the opportunities and tools they need to excel. With dōTERRA at your side, you know what to do and can confidently go do it.

Beauty | Seasonal Skincare Transition

As the warmth of summer fades into the crisp air of fall and chill of winter, your skin begins to feel the subtle yet real effects of the shifting seasons. The sun-kissed glow starts to dull, replaced by a dryness that feels tight—less nourished and vibrant. The wind bites a little harder, and the air feels a little harsher.

This transition can leave your skin feeling parched and rough. It needs extra attention and care for you to feel your best. That care is easily within reach when you have key dōTERRA essential oils and products to help your skin (and by extension yourself) thrive through the change in seasons.

Embracing Seasonal Changes

Summer turning into fall and winter is a time of transformation, for nature and for your skin. The lower humidity and cooler temperatures strip away the moisture, leading to dryness, flakiness, and lackluster complexion.

Now is the perfect moment to reassess your skincare routine and introduce products that can help refresh and maintain your natural beauty!

As you prepare your skin for the cooler months, you should look at the whole picture. Your routine needs to be comprehensive, addressing the changing needs of your skin brought on by the suddenly different weather and climate.

Cleanse and Purify

Every skincare routine needs a gentle cleanse. The seasonal shift into fall and winter can mean more sensitive skin. Combining a cleanser with **Tea Tree** essential oil can help purify your skin, keeping it clear and fresh despite the environmental challenges.

Tea Tree gently removes impurities and excess oils without stripping your skin of its essential moisture. Plus, it has an incredibly grounding scent and can help your nails, purifying and keeping them looking healthy. Imagine starting your day free from the residue from yesterday and ready to take on whatever comes your way.

Hydrate and Soothe

Hydration is key as the weather cools. Your skin's natural barrier can weaken in the colder months, leading to increased dryness and irritation.

Lavender essential oil is renowned for its soothing and calming topical properties. Mixing a few drops with your moisturizer can help calm irritated skin. The delicate scent will soothe your senses as it nurtures your skin.

For an added layer of hydration, **Rose Touch** is perfect for nurturing dry and sensitive skin. Its hydrating and rejuvenating properties help to lock in moisture, giving your skin what it craves during the fall and winter months and leaving you feeling soft and supple. Applying Rose Touch is like giving your skin a gentle hug, wrapping it in a cocoon of hydration.

Targeted Care

As the air grows colder, specific areas of your skin may need extra attention. Dry patches, blemishes, and other skin imperfections can become more pronounced. **HD Clear**[®], a blend designed for troubled skin, is ideal for supporting a clear complexion. Apply it to problem areas to help balance and soothe your skin. The natural ingredients work together to keep your skin looking its best, even in the harshest conditions.

You can also make **Helichrysum** essential oil part of your routine. The name *helichrysum* is derived from the Greek words *helios*, meaning "sun," and *chrysos*, meaning "gold," which reference the plant's flower. And a common nickname for both the plant and the essential oil is "the immortal flower."

Known for its topical restorative properties, Helichrysum can improve your skin's appearance and reduce the appearance of wrinkles, promoting a youthful glow. It's just what you need as you make the transition from summer into fall and winter.

Refresh and Invigorate

Being cooped up inside can make you feel stagnant and stale. **Douglas Fir** essential oil offers a refreshing and invigorating experience. Its natural cleansing properties make it a great addition to a facial steam, opening up your pores and deeply cleansing your skin.

The refreshing aroma also provides a grounding effect, creating a space for you to feel balanced and revitalized. So you benefit your skin and your surroundings, gifting yourself a moment of relaxation and clarity.

5 Extra Seasonal Skincare Tips

Stay Hydrated—Amid the festive holiday beverages, drinking plenty of water is essential for keeping your skin hydrated from the inside out. Aim to drink at least eight glasses a day (or 72 ounces) to maintain optimal bodily function and skin moisture.

Eat a Balanced Diet—Foods rich in vitamins A, C, and E and omega-3 fatty acids (or supplements like **EO Mega**®+) can greatly help when it comes to nourishing your skin. Incorporating lots of fruits, vegetables, nuts, and fish into your diet can support your skin and your overall health, though dietary needs can limit selections.

Gently Exfoliate—Regular exfoliation helps remove dead skin cells, allowing your skin to absorb moisturizers more effectively. Use a

gentle exfoliant—like **dōTERRA spa Exfoliating Body Scrub** or **dōTERRA Essential Skin Care Invigorating Scrub**—once or twice a week to keep your skin smooth and looking radiant.

Use a Humidifier—Indoor heating can dry out the air, which in turn dries out your skin. Using a humidifier in your home can help with ideal moisture levels in the air. Luckily, there's the **Dawn**® **Aroma Humidifier** that can humidify and diffuse essential oils fit for the seasons and festivities, like those suggested in the "Top 7 Products for Fall and Winter" (page 42).

Protect Your Skin—Don't forget to protect your skin from the elements. Wear gloves and scarves to shield your skin from the cold wind and use a natural broad-spectrum sunscreen like the products in the **dōTERRA sun** line to protect against UV rays, even on cloudy days.

Embrace Your Natural Beauty

It's easy to forget that your skin is the largest part of you. It lives, breathes, and deserves to be treated with loving care. You can make the most of the shifting seasons and bask in their natural beauty and your own with dōTERRA essential oils.

The best part is you've probably got these products on hand! They're so simple to bring into any established habits and routines. So as the seasons begin to change, start using these purifying, soothing, and invigorating essentials today and let your skin reflect the beauty and vitality within you.

dōTERRA®

Most people know dōTERRA simply as an essential oil company. But to truly understand who we are and what we do, look to our purpose:

- We intentionally source the gifts of the earth, enriching every life we touch.
- We empower people and communities in their pursuit of self-reliance.
- We break cycles of human suffering and poverty as our business expands.
- We advocate and educate to empower everyone with natural wellness solutions.
- We advance science for the innovative use of essential oils.

dōTERRA was founded with the bold commitment to sell only pure essential oils. As we rapidly expanded, traditional suppliers told us we couldn't maintain our growth without resorting to extended or adulterated oils. But we refused to compromise on quality. Instead, we began sourcing essential oils directly. We set up long-term relationships with farmers and distillers, building our Global Botanical Network of sourcing partners. We created an award-winning sourcing model—Cō-Impact Sourcing®—to source the best and help the most.

Responsible sourcing blesses the lives of the growers and harvesters from whom we source dōTERRA essential oils. It also makes a difference for you. When we say our intention is to enrich every life we touch, we mean *every life*—from our planting and harvesting partners to the individuals and families who use our essential oils in their homes. It's why we pursue what's pure.

What Are Essential Oils?

The Power of the Entire Earth in One Bottle

On the 196,900,000 square miles of the earth's surface, scientists estimate there are 390,000 plants—with new species being discovered regularly. Unseen by the naked eye, essential oils hide in the seeds, stems, roots, barks, flowers, needles, and fruits of plants.

Essential oils are typically found in microscopic, specialized glands within certain plants. Scientifically speaking, essential oils are small organic molecules that quickly change from a liquid to a gas at room temperature. That's what makes bottled essential oils so powerful. Your bottle contains tiny molecules in a liquid state. When you unscrew the cap and open it, the molecules change swiftly from a liquid to a gas, which is why you can smell the essential oil immediately—even from a distance.

Natural Solutions for Modern Problems

Essential oils have become increasingly popular and commonplace recently. However, their use dates back to ancient Egypt, Greece, and Rome, among other places. Essential oils aren't just a fad or new trend. They're powerful plant extracts that can be used to promote well-being—just as they have for centuries. Today, millions of people have made essential oils part of their homes because these gifts of the earth provide a natural way to make everyday life easier.

CPTG®

CPTG Certified Pure Tested Grade®

Previously in the world of essential oils, no set standard of quality existed, allowing many companies to cut corners on purity. So we made our own standard: CPTG Certified Pure Tested Grade.

We diligently work with a worldwide network of essential oil chemists, growers, and distillers to select botanicals of the correct species that are grown in ideal environments and harvested at the right times. Once an essential oil is distilled, it must pass a series of rigorous lab tests, layered one on top of the other for a more complete picture—including gas chromatography–mass spectrometry (GCMS). These steps and processes make dōTERRA® essential oils the purest on the market.

Why It Matters

Many oils contain fillers, artificial ingredients, contaminants, or chemical residues. These adulterating elements can cause an oil to lose its efficacy and can even be harmful in some cases.

When you choose to purchase essential oils, you're looking for natural solutions to support your home and family. The CPTG® standard ensures when you order from dōTERRA, you receive pure, unadulterated essential oils that are safe to use on yourself and your loved ones. You should never have to settle for anything less.

Essential Oil Uses

Anyone can benefit from essential oils. Millions of people across the world are passionate about using natural products to support their families and live a healthy lifestyle. When you adhere to product labels, instructions, and warnings, you can confidently bring essential oils into your home.

Essential oils have a long history of safe, effective usage. When you apply a proper amount of pure essential oils, they're absolutely safe for you, your family, and your home. Like anything else you'd bring into your space, essential oils are safe when you adhere to recommended doses and employ them as intended.

There are three basic essential oil application methods: aromatic, topical, and internal. Essential oils can also be used for home care.

Using an essential oil aromatically means experiencing its properties through the air. Aromatic usage typically includes breathing in or inhaling an essential oil, allowing the scent to interact with your senses.

Applying an essential oil topically is a safe, effective way to enjoy the benefits it offers the skin.

Taking an essential oil internally can be done by directly applying it to the tongue or mouth, filling a Veggie Cap, or adding it to food and beverages.

Certain essential oils can be extremely beneficial in the home for daily chores and cleaning. If cleaning and caring for your home with natural, nontoxic ingredients is important to you, then dōTERRA® essential oils can provide a simple, powerful way to keep your home in order.

Look for the following symbols in this guide to help you determine how an essential oil can be used. You'll also notice sensitive skin symbols to help you safely dilute products before applying them topically.

Application Methods

- A** Can be used aromatically
- T** Can be used topically
- I** Can be used internally
- H** Can be used for home care

Sensitive Skin

- N** Can be used with no dilution (neat)
- S** Dilute for young or sensitive skin (sensitive)
- D** Dilute before using topically (dilute)

Guidelines for safe usage:

- **Labels:** Pay attention to any warnings included on essential oil packaging.
- **Areas to avoid:** Avoid putting essential oils in the nose, inner ears, and eyes or on broken skin or other sensitive areas.
- **Dilution:** To minimize skin sensitivity, dilute essential oils with a carrier oil. The suggested dilution ratio is one drop of essential oil to five drops of carrier oil.
- **Strong essential oils:** Always dilute essential oils with a particularly strong chemistry (like Cassia, Cinnamon Bark, Clove, Oregano, and Thyme) before topical application.
- **Sun sensitivity:** Avoid direct sunlight or UV rays for at least 12 hours after using certain essential oils on the skin that may pose a risk for skin sensitivity (such as citrus oils).
- **Safe storage:** Store essential oils out of reach of children. Keep them away from excessive light or heat.
- **Young children supervision:** Always supervise essential oil application with children. Dilute essential oils before applying them to a child's skin.

Where to Begin

Using essential oils is intuitively simple and highly satisfying. However, the many oils available, with their numberless combinations and wellness applications, can be a bit overwhelming to beginners. As a simple first step on your journey with essential oils, we recommend a trio of Lavender, Lemon, and Peppermint. Three of our most popular oils, they will provide you and your family a compelling experience with the life-enhancing properties of essential oils. See individual labels for ingredients, cautions, and instruction for use.
