- + Motion Sensor Range: 4 meter / 13 feet, 120-degree field of view
- + Power Source: DC 5V 1A and 3.7V 800mAh battery
- + Normal mode — indicator light is blue
- + High mode — indicator light is green
- + Comes with USB Cable

Description

A small, motion-activated diffuser that enhances any decor, Bubble Salt Diffuser captures the soft white beauty of salt crystals in their purest form. Designed to hibernate until it detects the presence of movement, its infrared motion sensor has a 13-foot range, a 120-degree field of view, and is ready to release a favorite oil or blend into the air whenever someone enters the room. This powerful mini diffuser operates without water and in two mist modes, normal and high, so you can create the perfect aroma ambiance. It uses 5 mL and 15 mL dōTERRA essential oil bottles and can fill a 110 square foot room. The diffuser runs up to 12 hours on a charge and an indicator light flashes when it's time to be recharged with the provided USB Cable. The Bubble Salt Diffuser is inconspicuous and suits any space.

The diffuser comes with a 15 mL bottle of Mālama Nurturing Blend, a sparkling combination of bright citrus, enchanting floral, and centering wood aromas. The blend captures the magic and energy of Hawaii and its people.

The Mālama PIP provides more information about the blend.

Cautions

Mālama: Possible skin sensitivity. Keep out of reach of children. If you are pregnant, nursing, or under a doctor's care, consult your physician. Avoid contact with eyes, inner ears, face, and sensitive areas. Avoid sunlight and UV rays for at least 12 hours after applying.

Diffuser: See diffuser manual and product label for cautions, instructions and additional information.
