Primary Benefits

- + Provides deep moisture with meadowfoam seed oil
- + Creates a noticeable tightening and lifting effect
- + Helps improve the appearance of fine lines and wrinkles while helping to prevent future signs of aging with bakuchiol

Description

dōTERRA Anti-Aging Eye Cream combines clinically proven ingredients with CPTG® Frankincense, Ylang Ylang, and Blue Tansy essential oils to target the signs of aging around the delicate eye area, helping to reduce the appearance of fine lines and wrinkles over time. This innovative formula moisturizes, decreases the appearance of dark circles, and improves skin firmness and tone. Bakuchiol, a plant-based ingredient in the cream, helps reduce the appearance of fine lines and wrinkles and protects skin from future signs of aging. The steel rollerball applicator cools and soothes under-eye skin, helping reduce the appearance of puffiness and dark circles while gently applying cream to targeted areas.

Directions

Press pump until small amount of product appears around the rollerball. Using gentle pressure, apply to under-eye area until absorbed. Use morning and night.

Cautions

For external use only. Avoid direct contact with eyes. If skin irritation occurs, discontinue use.
