PRODUCT DESCRIPTION

Native to Southern Europe and Western Asia, Cypress essential oil is derived from tall evergreen trees. Cypress has a fresh, clean aroma that's energizing and refreshing. Cypress is frequently used in spas and by massage therapists. Cypress contains monoterpenes, making it beneficial for oily skin conditions. One of the main chemical compounds and monoterpenes in Cypress, α -pinene, helps to reduce the appearance of blemishes. The monoterpenes in Cypress are beneficial for oily skin and overall skin health. It also has a grounding effect, making it a popular oil to diffuse during times of transition or loss.
