## PRODUCT DESCRIPTION

dōTERRA fluoride-free Natural Whitening Toothpaste combines the protective benefits of the proprietary dōTERRA On Guard blend of CPTG Certified Pure Tested Grade™ essential oils with other natural ingredients that help clean teeth, and with gentle polishing agents that whiten teeth.

The dōTERRA On Guard blend of Wild Orange, Clove, Cinnamon, Eucalyptus, and Rosemary essential oils provides an extra cleaning boost. Additional essential oils of Peppermint and Wintergreen, and the natural sweetener xylitol, give dōTERRA On Guard Natural Whitening Toothpaste a refreshingly unique cinnamon-mint flavor that leaves your breath—and toothbrush!—fresh and clean throughout the day.

Hydroxyapatite, a naturally occurring substance, is an oral care ingredient with experimental research to indicate its ability to help remineralize and restore enamel. To keep your teeth healthy and free from cavities and enamel erosion, the enamel needs to be constantly built back up, or remineralized. Hydroxyapatite helps make teeth feel stronger, smoother, healthier, and less sensitive to hot or cold.

Hydrated silica is a natural abrasive that helps remove tooth stains, but is gentle enough to not damage tooth enamel.

## DIRECTIONS FOR USE

After flossing, apply a pea-size amount of paste to moistened toothbrush. Brush gently but thoroughly, preferably after each meal and in the morning and at night, or use as directed by a dentist or physician. For optimal results, follow with dōTERRA On Guard Mouthwash.

## CAUTIONS

Use only as directed. Keep out of reach of children.
