- + Genetic analysis suggests that *Boswellia serrata* extract standardized to AKBA regulates genes associated with healthy inflammatory responses and promoting healthy joints.*

Description

Frankincense Boswellic Acid Complex combines Frankincense essential oil and Frankincense resin in a liquid-based microbead capsule. It contains a standardized 60% concentration of AKBA (Acetyl-11-keto-beta-boswellic acid), a compound extracted from *Boswellia* resin known to aid a healthy inflammatory response. Frankincense Boswellic Acid Complex is formulated to support joint comfort, provide antioxidant support and protection, and according to preclinical research support healthy cellular function.*

Directions

Take 1 or more capsules daily as needed with food.

Cautions

Keep out of the reach of children. Pregnant or nursing women and people with known medical conditions should consult a physician before using. Do not use if safety seal is broken or missing. Store in a dark, cool, dry place.

Ingredients

Frankincense resin oil, frankincense resin extract, extra virgin olive oil, hypromellose, microcrystalline cellulose, mixed tocopherols, annatto seeds powder, silicon dioxide, calcium carbonate, spirulina, zinc oxide
