

dōTERRA introduces two unique loose leaf herbal teas to its lineup of special products designed to indulge your taste buds while providing a soothing luxury to the day. And, of course, there's nothing better than a warm cup of tea. The tea collection includes two beautiful, decorative tea canisters, one containing Immune Booster tea blend and one containing Soothing tea blend, along with a tea steeper.

TEA STEEPER

Included is a seven-inch long steeper. Enjoy loose-leaf tea without the mess. Scoop the desired amount into the stainless steel part of the steeper. The steeper's silicone top seals, keeping the tea in place. Then place the steeper into a favorite mug. The long neck makes it easy to steep by the mugful.
