

# Kumquat

*Fortunella japonica* 5 mL

dōTERRA®  
Product Information Page

CPTG Certified Pure Tested Grade®

**Application:** A T I N

**Plant Part:** Peel

**Extraction Method:** Cold pressed

**Aromatic Description:** Citrus, clean, fresh, sweet

**Main Chemical Component:** Limonene

**Kumquat** | *Fortunella japonica* 5 mL

*This product is not available for purchase.*

## Primary Benefits

- + Provides a refreshing environment when diffused
- + Supports the skin when applied topically due to the chemical constituent limonene, according to preclinical research
- + Delivers cleansing benefits when used in household surface cleaning due to its limonene content, according to preclinical research

## Description

Indigenous to Asia, the kumquat fruit is the size of a large olive and can be eaten whole with the peel. The peel has been described as being sweet, and the flesh sour. Due to limonene—the same main chemical component found in Lemon, Lime, Wild Orange, and other citrus essential oils—the kumquat peel produces a versatile essential oil known to have aromatic benefits as well as cleansing properties, according to preclinical research. The aroma of CPTG® Kumquat brightens and refreshes any environment.

## Uses

- + Add a drop to your facial cleanser, shampoo, or toothpaste.
- + Include a few drops in a diffuser blend to create a refreshing atmosphere.
- + Add a drop or two to a DIY surface cleanser.

## Directions

**Aromatic use:** Use 3-4 drops in the diffuser of choice.

**Topical use:** Apply 1-2 drops to desired area. Dilute with carrier oil to minimize any skin sensitivity.

**Internal use:** Dilute 1 drop in 4 fl. oz. of liquid.

See additional precautions below.

## Cautions

Possible skin sensitivity. Keep out of reach of children. If you are pregnant, nursing, or under a doctor's care, consult your physician. Avoid contact with eyes, inner ears, and sensitive areas. Avoid sunlight and UV rays for at least 12 hours after applying.
