## Description

As you age, so does your metabolic function. Your metabolism influences your energy, weight, body composition, and even your cognitive performance. MetaPWR Advantage was developed by dōTERRA researchers to support a healthy metabolism, keep you mentally energized, and promote healthy weight and body composition.\* Combined with healthy lifestyle choices, taking MetaPWR Advantage once a day can help fortify your metabolic health.\*

MetaPWR Advantage contains NMN and resveratrol, and although more confirming clinical research is needed, preclinical studies suggest metabolic health is bolstered by increasing NADH and NAD<sup>+</sup> production in the body and activating the SIRT longevity genes. Advantage also contains nine types of collagen tripeptides from marine source, which may improve skin elasticity, density, and firmness.\* The amino acids in the collagen may also support lean muscle and connective tissue, contributing to healthy weight and body composition.\*

MetaPWR Advantage is part of the MetaPWR Metabolic System, which supports a healthy lifestyle focused on energy and vitality, metabolic health, and weight management to add health to your lifespan.\*
