

CPTG Certified Pure Tested Grade®

MetaPWR | Recharge™

Electrolyte Drink Mix

Dietary Supplement

30 x 10 mL / 0.35 fl oz sachets

Lemon-Lime *with other natural flavors*

60225876

Wild Strawberry *with other natural flavors*

60225877

Primary Benefits

- + Improves cellular hydration*
- + Facilitates water transport between cells*
- + Provides balanced ratios of 6 electrolytes*
- + Includes over 80 deep ocean minerals

Free from GMOs, gluten, dairy, preservatives, and artificial ingredients

Description

Water makes up over 2/3 of a healthy human body. It lubricates the joints and eyes, aids digestion, flushes out waste and toxins, and keeps the skin healthy. Dehydration occurs when the normal water content in the body is reduced. This upsets the balance of salts and sugars in the body, which affects the way it functions. Staying hydrated is a simple but important way to keep your body functioning at its best.

Over 75% of us are dehydrated and lacking daily nutritional balance of key electrolytes to keep cells charged and energized. Hydration is key to a healthy metabolism, and healthy cells cannot produce energy without it. Electrolytes are essential for various bodily functions, like maintaining proper muscle and nerve function and regulating your body's fluid balance.

Water alone isn't enough. MetaPWR Recharge provides an exclusive blend of electrolytes involved in cellular hydration, including extracts like baobab and deep-sea ocean minerals from the Kuroshio Current in the Pacific Ocean. Together, these ingredients make water work more cooperatively with your cells so you don't have to work hard to stay hydrated.*

Directions

Shake a sachet to activate. Empty the liquid concentrate into 16 ounces of cold water and enjoy.

Cautions

Consult your physician before use if you're pregnant or nursing, have a medical condition, or take any medication. Keep out of reach of children.
