

# Bubble Diffuser Ruby

Motion Activated Diffuser + Holiday Joy® Holiday Blend 15 mL

dōTERRA®

Product Information Page

## Description

The Bubble Diffuser Ruby is a small, motion-activated diffuser in a rich red, metallic finish perfect for the holiday season. Designed to hibernate until it detects the presence of movement, its infrared motion sensor has a 13-foot range, a 120-degree field of view, and is ready to release a favorite oil or blend into the air whenever someone enters the room. This powerful mini operates without water and in two mist modes, normal and high, so you can create the perfect aroma ambiance. It uses 5 mL and 15 mL dōTERRA essential oil bottles and can fill a 110 square foot room. The diffuser runs up to 12 hours on a charge and an indicator light flashes when it's time to be recharged with the provided USB Cable. The Bubble Diffuser Ruby fits in almost any space and will add a distinctive, festival touch to any room in the home for years to come.

**Important:** See the Bubble Ruby Diffuser Manual for instructions and cautions.

The diffuser comes with a 15 mL bottle of Holiday Joy to fill the air with an inviting and familiar combination of CPTG® essential oils. Diffuse Holiday Joy for a citrusy, spicy-sweet aroma alive with memories and tradition.

The Holiday Joy PIP provides more information about the blend.
