Ingredients: Grapeseed, Hempseed, Rosehip, Meadowfoam

Sensitive Skin | Carrier Oil Blend 1 fl oz / 30 mL

60213950

Primary Benefits

- + Soothes dry, distressed, and irritated skin
- + Protects the skin's moisture barrier
- + Easily absorbs with a lightweight formula
- + Hydrates and nourishes the skin

Description

So many things can affect your skin: a sunny day at the beach, wintry winds on the slopes, and even age and genetics. Formulated with CPTG® plant ingredients, dōTERRA Sensitive Skin Blend is a gentle carrier oil formulated to calm, comfort, and condition skin. This proprietary combination of fatty oils—including Grapeseed, Hempseed, Rosehip, and Meadowfoam—is known to fortify and protect the skin's moisture barrier. Lightweight, comforting, and penetrating, the blend soothes and nourishes dry, distressed, and irritated skin. Dilute your favorite essential oils in this odorless, colorless carrier oil to enjoy their benefits while minimizing reactions. Use Sensitive Skin Carrier Oil Blend in the bath, after a shower, during a massage, or apply directly to especially dry areas to help keep skin hydrated and healthy-looking.

Uses

- + Create a skin-soothing experience by combining the carrier blend with your favorite essential oil.
- + Smooth onto the skin after a bath or shower with your favorite skin-nourishing essential oil, like Geranium, Rose, or Helichrysum.
- + Apply to dry spots like elbows and knees.

Directions

Use as a light carrier oil for topical applications of CPTG® essential oils. Dilute 1 part essential oil to 5 parts or more Sensitive Skin Carrier Oil Blend, depending on skin sensitivity, or as directed on the bottle label. Also use to minimize sensitive skin reactions to essential oils by applying directly to the affected area.

Cautions

For external use only. Keep out of reach of children. If pregnant or under a doctor's care, consult your physician. Avoid contact with eyes, inner ears, and sensitive areas. Store in a cool, dry place.
