Primary Benefits

- + Rejuvenates and replenishes the skin with shea containing unsaturated fatty acids, as well as Vitamins A and E
- + Hydrates, renews, and nourishes for healthy-looking and beautiful skin

Description

Step into a world of luxury and pampering with the rich and soothing experience of the Shea Butter Collection. Known for its deep moisturizing and rejuvenating properties and its ability to soothe skin, shea butter is extracted from the nuts of the shea tree. The nut is primarily composed of saturated and unsaturated fatty acids, as well as Vitamins A and E. Vitamins A and E hydrate skin. Shea butter also contains the essential fatty acids alpha-linolenic acid (ALA) and linoleic acid that help protect skin.

The Shea Butter Collection contains one unscented balm and balms infused with CPTG® essential oil aromas: Yuzu & Magnolia—balancing and relaxing, Helichrysum & Rose—restoring and rejuvenating, and Blue Tansy, Neroli, & Yarrow—soothing and renewing.

Keep and gift this collection knowing \$10 of each purchase supports the dōTERRA Healing Hands Foundation® with a \$10 donation to help empower people and communities worldwide to be healthy, safe, and self-reliant.
