Rose Hydrosol Mist is an instant pick-me-up for your face with a light, rosy-floral aroma. This skin-calming mist is created with Damascena rose petals using hydro-steam distillation at our facility in Bulgaria, Terra Roza. The hydrosol helps revitalize dry, tired skin and gives the complexion a healthy-looking radiance, based on preclinical evidence from the constituent geraniol.

Moringa Rose Nourishing Oil gently into the skin and helps create a soft, dewy, luminous complexion. This moisturizing oil soothes skin, while rose provides a relaxing aroma. Oil from the seeds of the moringa tree, rich in oleic and other fatty acids, is combined with comforting and balancing CPTG® Rose essential oil to reduce the appearance of skin imperfections and promote a healthy-looking and even skin tone.
